Active Key products are characterized by a unique feel. They offer perfect writing comfort with optimum cleanability and can be customized for specific projects.

**DESIGN AND FIRST-CLASS QUALITY: MADE IN GERMANY.**

### HYGIENE DESKTOP 2

THE DESKTOP SET FOR HYGIENE  
CRITICAL ENVIRONMENTS

The HYGIENE DESKTOP 2 is a customizable set consisting of the AK-C8112 Medical Keyboard with the AK-PMH3 Medical Mouse 3-Button Scroll or the AK-PMH3 Medical Mouse Scroll Sensor. According to your needs, all products are available corded or wireless.

### THE AK-C8112

is the update of the popular AK-C8100 hygienic keyboard and is much easier to clean thanks to its flatter key profile. It complements the Medical Keyboard range „-12“ (e.g. AK-C7012, AK-C4012) with a keyboard in full layout and thus brings office keyboard expertise to hygiene-critical areas.

### THE AK-PMH3

hygienic mice in the „3-Button Scroll“ and „Scroll Sensor“ versions meet the highest ergonomic requirements and are particularly suitable for use on shiny surfaces (e.g. Corian) in the medical sector thanks to the blue light sensor.
